

## Year 4 Summer Term

Year 4 have enjoyed a very busy Summer Term, enjoying drop-down days for their new Potions topic. They explored Science, Design Technology, and more creative elements of the curriculum in greater depth, allowing them to produce fantastic Potion bottles, and some of their own interesting concoctions, along with some lovely pieces of writing to accompany these! We had a brilliant turn out from parents for Sports day, for which we are very grateful! Our strongest swimmers also enjoyed their chance to shine at our Gala, and again the standard of swimming was extremely high, along with the sportsmanship and team ethos!
